## REPORT OF SUPERINTENDENT OF SCHOOLS

### TO THE CITIZENS OF MAPLETON:

I take this opportunity to thank the people of Mapleton for the uniform kindness and courtesy which I have met in all my relations with them.

This year has, of necessity, been a transition period, for no superintendent can begin in the middle of the school year and carry out the plans of his predecessor, though I have striven earnestly to do so.

It has been our policy to retain the same teacher in a school throughout the year, when we are justified in so doing, as a frequent change in teachers, necessarily means a loss of interest and improvement to the pupil.

So far as possible we have employed experienced, or trained teachers, and in very few cases have we failed to get value received for the money expended. Have also followed the custom of my predecessor in employing resident teachers, when they are in every way the equal of the the non-resident teachers ,

But our belief is that the schools are run for the benefit of the pupils rather than that of the teachers, and that so far as possible only trained or experienced teachers should be employed.

While the percentage of attendance this year has been slightly higher than last year, it is still very unsatisfactory, and we hope that the parents will cooperate with us during the coming year in bettering this phase of our schools. No pupil can do their best work unless they attend school regularly, and surely we all wish to get the greatest amount of good from the money invested in our schools. Now our attendance this year has been slightly over 80 per cent, or in other words we have only received four fifths of the value of the money invested.

It is pleasing to note the increased interest in the schools as shown by the increased number of visits by citizens.

It is a source of strength to the teacher to have the community show an interest in their work, and in the name of the teachers we invite you to visit the schools as often as possible. This cooperation enables the school to be, what too often it is not, the true auxiliary of the home.

The enrollment of the Griffin Ridge school has been so low that it will be discontinued by State law unless a vote is taken to continue it for another year.

### SCHOOLHOUSE REPAIRS

The Old Mill schoolhouse should be thoroughly repaired during the coming summer as it is not at the present time suitable for school purposes, and the need of the school has been clearly shown. The Lovely schoolhouse needs new doors, besides many other minor repairs, and the woodshed should be repaired thoroughly before next fall. The woodsheds at the Griffin Ridge and Dennett schools are also in need of repair. New out buildings are needed at the Park school, and at very small expense, a heating apparatus similar to that used in the Casey school may be installed, thus making the building comfortable in cold weather.

Some minor repairs are needed in other schools.

As but two of our school lots are fenced, we would suggest that a sum of money ample for fencing one lot be raised at each

annual town meeting so that in a few years the lots will be fenced and the additional expense will be very slight each year.

TEXT BOOKS AND SUPPLIES

During the coming year a great many new books will be needed to take the place of the old ones that have been used up. The text books in Physiology should be changed for an up-to-date book, and a great many small language books are needed throughout the town. New readers need to be introduced into some of the schools. Maps and charts are also lacking in many schools. We would recommend for the coming year the same amount that was raised last year for text-books
